ENGINEERING ALUMNI KICK-OFF UH CULLEN COLLEGE OF ENGINEERING’S 60TH ANNIVERSARY

Posted on October 22, 2001
Over 150 engineering alumni, faculty, staff, students and friends came out to the Engineering Alumni Association's annual Homecoming tailgate party to help the UH Cullen College of Engineering kick-off its 60th Anniversary.

Besides eating barbecue and reuniting with old classmates, many participated in the competitive Armchair Olympics, which teams an alumnus, professor and student by academic department to compete by shooting basketball hoops, throwing darts and putting on the green. The highlight of the afternoon was the dozens of UH engineering items that were raffled off. For kids, the most fun was jumping in the MoonWalk and playing the children's games that were provided by BP Amoco.
