UH HOSTS OPEN HOUSE FOR HIGH-TECH "CLEAN ROOM" ON FEB. 25 ^[1]

Posted on February 22, 2011

[2]

The University of Houston Nanofabrication Facility is a state-of-the-art clean room equipped with advanced tools to create micro- and nano-scale structures, most commonly on silicon wafers, for integrated circuits, microelectromechanical systems, microfluidic devices and other systems. It is available to faculty and students from all UH departments as well as researchers and businesses outside the university. From 1 p.m. to 3 p.m. Friday (Feb. 25), UH is hosting a free open house and dedication ceremony for the facility.
