

MECHANICAL ENGINEERING:

ENGINEERING THE MECHANICS OF OUR FUTURE

WHAT IS MECHANICAL ENGINEERING?

Mechanical engineers are the jack-of-all-trades within the engineering profession. Just about everything you can think of involves a mechanical process, and anything with a mechanical process is the business of a mechanical engineer. These engineers work in nearly every industry you can imagine, addressing problems in such areas as energy conversion, aerospace, design of mechanical components and systems, man and machine environments, product reliability and safety, polymers, materials, and instrumentation and control of processes.

CAREERS IN MECHANICAL ENGINEERING

Career opportunities in mechanical engineering are excellent – especially in the city of Houston, the Energy Capital of the World. A 2017 salary survey produced by the National Association of Colleges and Employers found that new mechanical engineering graduates earned an average starting salary of \$66,557.

WHY EARN YOUR MECHANICAL ENGINEERING DEGREE AT THE UNIVERSITY OF HOUSTON?

ACADEMICS

The mechanical engineering department at the University of Houston Cullen College of Engineering is top-ranked, attracting the highest quality and hardest working students, faculty members and researchers. Undergraduate students in the mechanical engineering department are taught to connect the dots between classroom lessons and their real-world applications through project-based learning, hands-on laboratory research, Capstone design projects and seminars led by industry professionals. The department's curriculum provides students with the opportunity to learn how to think creatively and logically, and how to use new-found knowledge to address complex problems. Throughout the curriculum, but particularly in the three-course design sequence, students are challenged with creative design problems. To solve these problems, students use skills learned from classes in mechanics of materials, experimental methods, engineering analysis, controls, materials science, thermodynamics, fluid mechanics and heat transfer.

RESEARCH

The mechanical engineering department at the University of Houston Cullen College of Engineering places great emphasis on undergraduate research, encouraging all undergraduate students to get involved with faculty-led research projects or Capstone design projects before they graduate. Mechanical engineering faculty members are incredibly active and productive researchers, focusing on research projects that are motivated by the challenges of the 21st century and grounded in the fundamentals of the mechanical sciences. With so many exciting research opportunities in the mechanical engineering department – touching on areas including applied mechanics, controls and dynamical systems, biomedical engineering, design of mechanical systems, materials engineering, and thermal and fluid sciences – students are guaranteed to get hands-on research experience before they graduate!

SCHOLARSHIPS

Scholarships are offered through the mechanical engineering department for qualified, top-performing students. Merit-based scholarships are also awarded by the Cullen College of Engineering.

Additional scholarships are offered by the University of Houston Office of Scholarships and Financial Aid. Also, the university's co-op program allows students to receive career training while financing their education.

STUDENT ORGANIZATIONS

Students are encouraged to join academic and professional organizations to build leadership, communication and networking skills. Members of student organizations receive career guidance from engineering professionals and participate in activities that promote engineering.

The UH chapter of the American Society of Mechanical Engineers (ASME) is a highly active organization, promoting teamwork and collaboration throughout the duration of a student's academic career. Several events are held annually for students to gain knowledge and meet professional contacts and colleagues.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

FOUR-YEAR ACADEMIC MAP 2018-2019

YEAR 1

SEMESTER 1			SEMESTER 2			Total
CHEM 1331	Fundamentals of Chemistry	3	CHEM 1332	Fundamentals of Chemistry II	3	
CHEM 1111	Fundamentals of Chemistry Lab	1	CHEM 1112	Fundamentals of Chemistry Lab II	1	
ENGL 1303	First Year Writing I	3	ENGI 1331	Computing for Engineers	3	
MATH 1431	Calculus I	4	MATH 1432	Calculus II	4	
POLS 1336	U.S. & Texas Constitution & Politics	3	PHYS 1321	University Physics I	3	
ENGI 1100	Introduction to Engineering	1	ENGL 1304	First Year Writing II	3	
Semester Hours 15			Semester Hours 17			32

Students should meet with their academic advisor to formulate their own plan.

YEAR 2

SEMESTER 1			SEMESTER 2			Total
CIVE 2330	Mechanics I	3	ENGI 2304	Technical Communications	3	
POLS 1337	U.S. Government	3	MATH 3321	Engineering Mathematics	3	
MATH 2433	Calculus III	4	MECE 2334	Thermodynamics	3	
PHYS 1322	Physics II	3	MECE 3336	Mechanics II	3	
CORE	Language, Philosophy & Culture Core	3	MECE 2361	Intro to Mechanical Design	3	
Semester Hours 16			Semester Hours 15			31

YEAR 3

SEMESTER 1			SEMESTER 2			Total
MECE 3338	Dynamics & Control of Mech Systems	3	HIST 1378/79	The United States Since 1877	3	
MATH 3363	Intro Partial Differential Equations	3	MECE 3245	Materials Science Lab	2	
MECE 3369	Solid Mechanics	3	MECE 3381	Intro to Finite Element Methods	3	
MECE 3345	Materials Science	3	MECE 3360	Experimental Methods	3	
CORE	Social & Behavioral Sciences	3	MECE 3363	Intro to Fluid Mechanics	3	
HIST 1376/77	The United States to 1877	3	CORE	Creative Arts	3	
Semester Hours 18			Semester Hours 17			35

YEAR 4

SEMESTER 1			SEMESTER 2			Total
MECE 4364	Heat Transfer	3	MECE 4341	Mechanical Engr Capstone II	3	
MECE 4340	Mechanical Engr Capstone I	3	MECE 4371 or	Thermal-Fluids Lab or		
MECE 53XX	Mechanical Engr Elective	3	MECE 4372	Mechanics-Controls-Vibration Lab	3	
MECE 4331	Design of Machine Elements	3	MECE 53XX	Mechanical Engr Elective	3	
MECE 4343	Thermal Design	3	MECE 53XX	Mechanical Engr Elective	3	
Semester Hours 15			Semester Hours 15			30
TOTAL SEMESTER HOURS						128

*Students should meet with their academic advisor to formulate their own plan. Course offerings are subject to change.
